

General Token Information

Name	yukii Community Token	Platform	Binance Smart Chain (BSC)
Symbol	YCT	Decimals	9
Total Supply	13,600,000	Exchange	Pancakeswap V2
Initial Value*	\$0.147 (≈ 0.125€)	Contract Address	

*The value of \$0.145 (0.125€) per token derives from this calculation: A user needs 1,200 tokens to invest with a discount of 50% in one of our products. If he invests 4,000€ (which is the average on similar platforms like ours) and saves the half of 0.75% or 2.00% fee over 10 years, the equation is: $(4,000€ \times 0.0075 \times 10) / 2 = 150€ (\approx \$174)$.
